> *Full Stack Web Developer* with a knack for designing and developing robust and user-friendly interfaces and websites using modern frameworks and build tools, including *React*, *Angular*, *Node/Express (MERN/MEAN)*, *GraphQL*, *Gatsby/Hugo/Jekyll*, *MongoDB* and *MySQL*. Background in graphic design, with four years experience in *UX/UI*, *branding*, and *motion design*.

EXPERIENCE

GK DESIGN & DEVELOPMENT
Boulder, CO, USA
April 2019 - August 2019

HOUSING DATA SYSTEMS - CONTRACT

Designed UX/UI and developed Dashboard system in Angular, consumed REST services to dynamically generate reports, interactive tables and data visualizations.

Developed frontend for reporting center in Angular, used by housing managers to access reports, visualizations, and raw data.

Worked with agile team to deliver features, enhancements and bug fixes in an AngularJS application.

UNIVERSITY OF DENVER
Denver, CO, USA
March 2019 - August 2019

WEB DEVELOPMENT BOOTCAMP TEACHING ASSISTANT

Guided students in learning HTML/CSS/JavaScript, React, Node/Express, MySQL, MongoDB in a classroom setting and one-on-one teaching sessions.

Tackled a variety of challenges and assisted students in developing projects, debugging code, git collaboration and deployment.

Graded projects and assignments and lead group review sessions.

GOLD STANDARD
Geneva, Switzerland
April 2016 - November 2018

MULTIMEDIA OFFICER

Designed and created the Project Developer Portal, a purpose-built LAMP/Wordpress portal for technical documentation, training videos, and additional resources used by 1,700 climate projects.

UX/UI design for the Gold Standard Platform, an online collaborative platform for news and discussion used by NGOs and key partners.

Designed and developed landing pages for events, marketing initiatives, and climate projects, using HTML/CSS/JavaScript and Adobe Creative Suite.
